

PRELIMINARY PROGRAM

Wednesday 7th October 2026

17.00-19:30 h Open Legacy Community Event (link to register will be shared soon)
I HAVE DIABETES AND WANT TO BECOME A MOM: WHERE DO I START?

17.00-18.00 **Riverside walk along the Ter** (route starts and ends at the Auditorium)
Guide: **Mariona Esteve**, Hospital Josep Trueta, Girona, Spain

18.15-19.30 **Preparing for a healthy pregnancy with diabetes** (held in Catalan or Spanish)
Chair: **TBC**, Girona, Spain

- Voice of people with diabetes
TBC, Girona, Spain
- Endocrinologist perspective
Mariona Esteve, Servei d'Endocrinologia I Nutrició, Hospital Josep Trueta, Girona, Spain
- Obstetrician perspective
Alexandra Bonmatí, Servei de Ginecologia I Obstetrícia, Hospital Josep Trueta, Girona, Spain
- Diabetes nurse perspective
- **TBC**, Servei d'Endocrinologia I Nutrició, Hospital Josep Trueta, Girona, Spain
- Midwife perspective
TBC, Servei de Ginecologia I Obstetrícia, Hospital Josep Trueta, Girona, Spain

Thursday 8th October 2026

10.00-12.00 h PRE-CONFERENCE INDUSTRY SYMPOSIA

- 10.00–11.00 Satellite Symposium Sponsored by Abbott Laboratories
 11.00–12.00 Satellite Symposium Sponsored by mylife Diabetes Care

13.00-13.10 h OPENING CEREMONY AND WELCOME

Denice Feig. IADPSG Chair. Chair IADPSG-DPSG Scientific Steering Committee 2026,
Lene Ringholm. DPSG Chair. IADPSG-DPSG Scientific Steering Committee 2026
Rosa Corcoy. Local Organiser. IADPSG-DPSG Scientific Steering Committee 2026

13.10-15.00 h SESSION 1

TECHNOLOGY AND TYPE 1 DIABETES: HYBRID CLOSED LOOP TRIALS AND REAL-WORLD DATA

Chairs: **Denice Feig** (Toronto, Canada) and **Rosa Corcoy** (Barcelona, Spain)

- 13.10-13.30 AiDAPT
Helen Murphy. University of East Anglia, Norwich, UK
- 13.30-13.50 CRISTAL
Katrien Benhalima. University Hospital Leuven, Belgium
- 13.50-14.10 CIRCUIT
Lois Donovan. University of Calgary, Canada
- 14.10-14.30 Real-World HCL Data
Carmen Quirós. Hospital Universitari Mútua de Terrassa, Spain
- 14.30-14.40 Panel Discussion
- 14.40-15.00 Oral Abstract Presentations

- OP01 Systematic review and meta-analysis of automated insulin delivery systems in pregnancies complicated by type 1 diabetes
Ina Geerts. KU Leuven, Belgium
- OP02 Impact of pre-meal and post-meal exercise on glucose excursions during early-middle and late gestation in women with type 1 diabetes
Pedro Acosta-Manzano. Department of Human Movement Science, Sport and Health, University of Graz, Austria
- OP03 Socioeconomic Disparity in Preterm Birth Among Women with Type 1 Diabetes: A Temporal Analysis over 25 years
Sine Knorr Knorr. Steno Diabetes Center Aarhus, Aarhus University Hospital, Denmark
- OP04 Temporal trends in major congenital malformations among pregnancies with maternal type 1 diabetes: A nationwide register-based study
Mathilde Råberg Christensen. Steno Diabetes Center Zealand, Denmark

15.00-15.30 h COFFEE BREAK

15.30-17.00 h

SESSION 2

GESTATIONAL DIABETES: STRATIFYING CARE TO IMPROVE OUTCOMES

Chairs: **David McIntyre** (Brisbane, Australia) and **Camille Powe** (Massachusetts, USA)

- 15.30- 15.50 Use of Early HbA1c to reduce need for OGTT
Ponnusamy Saravanan. University of Warwick & George Eliot Hospital, Balsall Common, UK
- 15.50-16.10 Use of Early Higher OGTT cut-offs to Target Care
David Simmons. Western Sydney University, Australia
- 16.10- 16.30 Early Diagnosis of GDM at <10 weeks gestation to Improve Care in India
Rajeev Chawla. DIPSI, India
- 16.30-16.40 Q&A
- 16.40-17.00 **Oral Abstract Presentations**

- OP05 Maternal early-pregnancy fatty liver index (FLI) is associated with both early- and late-onset GDM – a Finnish population-based study
Henric Kultalahti. University Of Helsinki, Finland
- OP06 First trimester prediabetes or IADPSG gestational diabetes and risk of hyperglycemia-associated neonatal morbidity
India Eaford. Massachusetts General Hospital, US
- OP07 Diagnosing gestational diabetes mellitus (GDM) in undernourished populations: Is there a difference?
Chittaranjan Yajnik. Kamalnayan Bajaj Diabetology Research Centre, Diabetes Unit, King Edward Memorial Hospital Research Centre, India
- OP08 Impact of new National GDM criteria on GDM prevalence among high-risk women in the TOBOGM study
David Simmons. Western Sydney University School of Medicine, Australia

17.00-18.00 h

SESSION 3

DEBATE - MATERNAL WEIGHT GAIN SHOULD BE LIMITED TO <5KG IN OBESE WOMEN DURING PREGNANCY

Chair: **David Simmons** (Sydney, Australia)

Pro. **Claire Meek.** University of Leicester, UK

Con. **Rosa Corcoy.** CIBER_BBN; Hospital de la Santa Creu i Sant Pau, Barcelona, Spain

18.00 h

WELCOME DRINKS RECEPTION

Dinner – free to arrange

Friday 9th October 2026

08.30-10.40 h

SESSION 4

UTILIZING THE POTENTIAL OF CONTINUOUS GLUCOSE MONITORING IN PREGNANCY

Chairs: **Helen Murphy** (Norwich, UK) and **Arianne Sweeting** (Sydney, Australia)

08.30-08.50

The Glucose Levels Across Maternity (GLAM)

Celeste Durnwald. University of Pennsylvania, USA

08.50-09.10

Maternal Glucose in Pregnancy (MAGIC)

Eleanor Scott. University of Leeds, UK

09.10-09.30

Glycemic Observations and Metabolic Outcomes in Mothers (GO MOMS)

Patrick Catalano. Massachusetts General Hospital, USA

09.30-09.50

What we have learned from the CopenFast trial

Lene Ringholm. Rigshospitalet University Hospital of Copenhagen, Denmark

09.50-10.10

CGM use in GDM: GRACE RCT

Christian Göbl (Medical University of Vienna, Austria)

10.10-10.20

Q&A

10.20-10.40

Oral Abstract Presentations

OP09 Normative data using continuous glucose monitoring system for glycemia in pregnancy at 24 to 32 weeks of gestation in Indian women defined as normal by IADPSG criteria

Yashdeep Gupta. All India Institute of Medical Sciences, India

OP10 Glucose control and neonatal growth in CGM-treated gestational diabetes: a GRACE secondary analysis

Silke Wegener. Charite Universitätsmedizin Berlin, Germany

OP11 Impact of continuous glucose monitoring on mental health and treatment satisfaction in women with gestational diabetes mellitus

Judit Amigó Farran. Hospital Arnau De Vilanova De Lleida, Spain

OP12 Continuous glucose monitoring for management of gestational diabetes mellitus: a randomised feasibility study in the UK

Christy Burden. University of Bristol, UK

10.40-11.10 h

COFFEE BREAK

11.10-12.40 h

SESSION 5

LESSONS FROM BASIC SCIENCE: POTENTIAL TO IMPROVE CLINICAL CARE

Chairs: **Alicia Jawerbaum** (Buenos Aires, Argentina) and **Sara White** (London, UK)

11.10-11.30

Role of MicroRNA's in LGA and placental function

Karen Forbes. University of Leeds, UK

11.30-11.50

Potential precision markers for GDM

Arianne Sweeting. IADPSG and ADIPS, Sydney, Australia

11.50-12.10 Unlocking Genetic Clues to GDM
Elisabeth Widen. Institute for Molecular, University of Helsinki, Finland

12.10-12.20 Q&A

12.20-12.40 [Oral Abstract Presentations](#)

OP13 Pancreatic Beta-cell Plasticity: Trans-differentiation of Delta to Beta-cells during Pregnancy

David Hill. Lawson Research Institute, Canada

OP14 Maternal and cord blood proteomic networks linking glycemia during pregnancy to birth weight in a South Asian birth cohort

Marie Pigeyre. McMaster University, Canada

OP15 Cord Blood TXNIP DNA Methylation Associations with Maternal Glycemia and Childhood Glucose Outcomes

Monica Bianco. Northwestern University Feinberg School of Medicine Chicago, US

OP16 Clinical usefulness of genetic risk scores in the prediction of gestational diabetes

Elina Keikkala. University Of Oulu, Finland

12.40-13.40 h LUNCH

13.40-14.40 h POSTER presentations (Parallel sessions)

Poster SESSION 1: [GESTATIONAL DIABETES MELLITUS](#)

Chairs: Jardena Puder (Lausanne, Switzerland) and Per Ovesen (Aarhus, Denmark)

Poster SESSION 2: [LONG-TERM OUTCOMES FOR MOTHER AND CHILD](#)

Chairs: Agnieszka Zawiejska (Poznan, Poland) and Helena Backman (Örebro, Sweden)

14.40-15.50 h SESSION 6

[MANAGING HYPERTENSIVE DISORDERS IN PREGNANCY IN WOMEN WITH DIABETES](#)

Chairs: **Elisabeth Mathiesen** (Copenhagen, Denmark) and **Celeste Durnwald** (Pennsylvania, USA)

14.40-15.00 Overview of Preeclampsia and Hypertension Disorders of Pregnancy
Jenny Myers. University of Manchester, UK

15.00-15.20 How low should Blood Pressure go in Diabetes in Pregnancy?
Lori Harper. University of Texas at Austin, USA

15.20-15.25 Q&A

15.25-15.50 [Oral Abstracts Presentations](#)

OP17 Time trends in perinatal outcomes comparing people with and without type 1 diabetes between 1965 and 2024: a systematic review and meta-analysis

Veronika Duwel. Amsterdam University Medical Center, The Netherlands

OP18 Cardiovascular adaption and placental function in pregnant women with type 1 diabetes – a prospective study based on the FaPD cohort

Sidsel Linneberg Rathcke. Aalborg University Hospital, Obstetrics and Gynecology Copenhagen, Denmark

OP19 Sonographic evaluation of the fetal abdominal subcutaneous tissue in the birth-weight estimation and prediction of the fetal macrosomia in pregnancies complicated by gestational and type 1 diabetes mellitus

Pawel Stanirowski. 1st Department of Obstetrics and Gynecology, Medical University of Warsaw, Poland

OP20 Placental Pathologies and Adverse Pregnancy Outcomes Associated with Underdiagnosed Glucose Dysmetabolism: A Nested Case-Control Study

Pradhiki Mahindra. University College London EGA Institute for Women's Health, UK

OP21 Individualized, risk-based delivery timing rather than routine early induction before the due date appears safe to avoid stillbirth

Ute Schaefer-Graf. Center for Diabetes and Pregnancy St. Joseph Hospital, Berlin, Germany

15.50-16.20 h	COFFEE BREAK
16.20-16:30	In Memory of Boyd Metzger Jeremy Oats , Melbourne, Australia
16.30-17.30 h	SESSION 7 AWARD SESSION Chairs: Lene Ringholm (DPSG Chair), Robert Lindsay (DPSG Past Chair) and Denice Feig (IADPSG Chair)
	DPSG Award Lectures
16.30-16.55	Joseph Hoet Award: Sara White (King's College, London, UK) Title pending
16.55-17.20	Jorgen Pedersen Award: Mary Loeken (Joslin Diabetes Center, Boston, US) How European Art and Science Inspired Research to Understand Diabetic Embryopathy
17.20-17.30	IADPSG-DPSG Young Investigator Travel awards delivery
17.30-18.30 h	DPSG ANNUAL BUSINESS MEETING (members only) Chair: Lene Ringholm. Copenhagen, Denmark
20.30 h	CONFERENCE DINNER (External venue, if you want to attend and not registered yet, contact us: registration@iadpsg2026.com)

Saturday 10th October 2026

09.00-10.30 h

SESSION 8

IMPACT OF DIABETES ON THE DEVELOPING FETUS: LESSONS FROM BASIC SCIENCE

Chairs: **Mary Loeken** (Boston, USA) and **Ewa Wender-Ozegowska** (Poznan, Poland)

09.00-09.20

Fetal brain development in GDM

Shalini Jaggi, DIPSI - Diabetes in Pregnancy Study Group India, India

09.20-09.40

DNA methylation and fetal programming of neonatal adiposity

Jami Josefson, Northwestern University/ Lurie Children's Hospital of Chicago, USA

09.40-10.00

Effect of maternal diets enriched in unsaturated fatty acids

Alicia Jawerbaum, Laboratory of Reproduction and Metabolism. CEFYBO-CONICET, Argentina

10.00-10.10

Q&A

10.10-10.30

Oral Abstract Presentations

OP22 Markers of pancreatic development and function are altered in the pancreas of female adult offspring of diabetic rats: Effects of a maternal diet enriched with extra virgin olive oil

Alicia Jawerbaum, Laboratory of Reproduction and Metabolism. CEFYBO-CONICET, Argentina

OP23 Genetic heterogeneity in gestational diabetes mellitus: monogenic diabetes variants and genetic risk of type 1 diabetes – findings from the TRANSLATE study

Isabella Lindegaard Jørgensen, Rigshospitalet Juliane Marie Centret Copenhagen, Denmark

OP24 Using human milk as a liquid biopsy to detect changes in mammary function during lactation after gestational diabetes

Brigid Gregg, University Of Michigan, US

OP25 Stillbirth risk by gestational week in women with type 1 and type 2 diabetes during 2014–2023: a population-based cohort study in Sweden

Claes Ignell, Lund University, Sweden

10:30-11:00

BREAK

11.00-12.30 h

SESSION 9

HOW DO I...?

Chairs: **Eleanor Scott** (Leeds, UK) and **Jenny Myers** (Manchester, UK)

11.00-11.20

Use fetal US to guide therapeutic decisions in managing GDM?

Manuela Fernández-López, Hospital Clínico Universitario Virgen de la Arrixaca, Murcia, Spain

11.20-11.40

Diagnose Type 2 postpartum (PREDISPOSE)?

Jennifer Yamamoto, University of Manitoba, Canada

11.40-12.00

Diagnose and treat GDM following bariatric surgery?

Roland Devlieger, University Hospital KU Leuven, Belgium

12.00-12.20 Manage diabetic retinopathy during pregnancy?
Elisabeth Mathiesen. Rigshospitalet University of Copenhagen, Denmark

12.20-12.30 Q&A

12.30-13.30 h LUNCH

13.30-14.30 h POSTER presentations (Parallel sessions)

Poster SESSION 3: PRE-EXISTING DIABETES MELLITUS AND PREGNANCY

Chairs: Marja Väärasmäki (Oulu, Finland) and Angela Napoli (Rome, Italy)

Poster SESSION 4: TECHNOLOGY AND BASIC SCIENCE

Chairs: Lilian Mendoza (Barcelona, Spain) and Mireille van Poppel (Graz, Austria)

14.30-15.40 h SESSION 10

LONG-TERM OUTCOME OF OFFSPRING FOLLOWING DIABETES IN PREGNANCY

Chairs: **Lene Ringholm** (Copenhagen, Denmark) and **Jami Josefson** (Chicago, USA)

14.30-14.50 MiTy (Metformin in women with type 2 diabetes in pregnancy) Tykes
Denice Feig. University of Toronto, Canada

14.50-15.10 Hyperglycemia and Adverse Pregnancy Outcomes (HAPO) Follow up
Ronald Ma. The Chinese University of Hong Kong, Hong Kong/China

15.10-15.20 Q&A

15.20-15.40 [Oral Abstract Presentations](#)

OP26 Neck circumference is an indicator of hyperglycaemic disorder 11-15 years after pregnancy – FinnGeDi follow-up study

Sanna Mustaniemi. University of Oulu, Oulu university hospital, Finland

OP27 The accuracy of Haemoglobin A1c and Fasting Plasma Glucose versus OGTT in diagnosing Type 2 Diabetes Mellitus in women with previous Gestational Diabetes Mellitus: A systematic review and meta-analysis

Line Sahlholdt Hansen. Steno Diabetes Center Aarhus, Denmark

OP28 Impact of Prior Gestational Diabetes on Future Normal Glucose Tolerance Pregnancy - A Retrospective Cohort Study in Galway, Ireland

Christine Newman. University Of Galway, Ireland

OP29 Clinical characteristics of women with newly diagnosed type 2 diabetes with or without a history of gestational diabetes

Maria Houborg Petersen. Steno Diabetes Center Odense, Odense University Hospital, Denmark

15.40-16.10 h COFFEE BREAK

16.10-17. 20h SESSION 11

GLP1-RECEPTOR AGONISTS: BEFORE, DURING AND AFTER PREGNANCY

Chairs: **Patrick Catalano** (Boston, USA) and **Jennifer Yamamoto** (Winnipeg, Canada)

16.10-16.30 Pre-pregnancy and pregnancy use of GLP1 Agonists and Pregnancy Outcomes
Camille Powe, (Massachusetts, USA)

16.30- 16.50 GLP-1 receptor agonists following GDM
Signe Foghsgaard, (Steno Diabetes Center Copenhagen, Denmark)

16.50-17.00 Q&A

17.00-17.20 [Oral Abstract Presentations](#)

OP30 Trajectory analyses of continuous glucose monitoring (CGM) from early to late pregnancy: association with neonatal adiposity

Kimberly Vesco. Kaiser Permanente Center for Health Research, US

OP31 Infant Weight Gain After Glucagon-Like Peptide-1 Receptor Agonist Discontinuation for Pregnancy

Jacqueline Maya. Massachusetts General Hospital, US

OP32 Association between GLP-1 Receptor Agonist Use During Pregnancy and Birth Outcomes in Pregnancies Affected by Gestational Diabetes or Type 2 Diabetes

Abigael Finkle. Lurie Children's Hospital Chicago, US

OP33 Maternal Glycaemia and Metformin Effects on Maternal and Neonatal Outcomes in Gestational Diabetes: Secondary Analysis of EMERGE

Christine Newman. University Of Galway, Ireland

17.20 h

CLOSING CEREMONY

Denice Feig. IADPSG Chair. Chair IADPSG-DPSG Scientific Steering Committee 2026

Lene Ringholm. DPSG Chair. IADPSG-DPSG Scientific Steering Committee 2026
